

A woman with long blonde hair is smiling and looking off-camera to her right. She is holding a silver laptop. She is positioned in front of a rustic, dark stone wall. A white, stylized frame, resembling a speech bubble or a stylized 'M', surrounds her and the text below. The frame has a jagged, geometric shape.

***We Matter to Millions***

## ***Graduate Schemes***

If finding a graduate scheme full of opportunities matters to you,  
**you matter to us.**

- **At Network Rail, we get people where they need to go.** We bring people together and offer Graduate and Placement opportunities that help build secure and successful careers. With a variety of graduate schemes and an array of summer and year-in-industry placements, ranging from engineering to business, there is something for everyone.
- **We'll help you discover where your interests lie by immersing you in all aspects of our industry.** Through rotational placements, you'll be supported to realise your future career potential.
- **You'll be part of one of the UK's largest employers.** We are driven by service, not profit, and we aim to create a safe and sustainable future for everyone.

## ***Apprenticeships***

If finding an apprenticeship full of opportunities matters to you,  
**you matter to us.**

- **At Network Rail, we help people get to where they need to go.**  
We bring people together and offer career-developing apprenticeship opportunities that allow individuals to build on what matters most to them.
- **There is something for everyone, combining practical hands-on work experience and expert training with study towards academic qualifications.**  
Our apprenticeships cover a range of fields providing pathways into various careers across the industry. This could be in engineering, operations or one of our business schemes.
- **As one of our apprentices, you will receive the structure and support needed to grow your career.** You'll learn from experienced mentors, build lasting relationships, and gain valuable hands-on experience. With over 20 of the UK's largest stations, 20,000 miles of track, and 30,000 bridges, tunnels, and viaducts under our control, you can be assured of a future that is both exciting and stable.
- Along with a competitive salary and excellent benefits, you'll play your part in delivering projects that matter to those around you—setting you up for a career full of possibilities.
